Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 177, Nos. 1 & 2, December 1997

K.-W. Kuo, M.F.K.L. Leung and W.-C. Leung: Intrinsic secondary structure of human TNFR-I mRNA influences the determination of gene expression by RT-PCR 1–6

N. Arora: Site directed mutagenesis of Histidine residues in Anthrax toxin lethal factor binding domain reduces toxicity 7–14

S.S. Lakhman and G. Kaur: Effect of Experimental diabetes on monoamine oxidase activity from discrete areas of rat brain: Relationship with diabetes associated reproductive failure 15–20

M. Ray, N. Basu and S. Ray: Inactivation of glyceraldehyde-3-phosphate dehydrogenase of human malignant cells by methylglyoxal 21–26

S. Giri and G.K. Khuller: Alteration in protein kinase(s) level affects the phospholipid content in *M. gypseum* with modulated levels of calcium/cyclic AMP 27–31

R. Geertz, W. Kiess, U. Kessler, A. Hoeflich, A. Tarnok and G. Gercken: Expression of IGF receptors on alveolar macrophages: IGF-induced changes in $InsP_i$ formation, $[Ca^{2+}]_i$, and pH_i 33–45

S.U. Maheswari, C.S. Ramadoss and P.R. Krishnaswamy: Inhibition of Fe(II) catalyzed linoleic acid oxidation and DNA damage by phosvitin 47–51

A.C. Santos, S.A. Uyemura, N.A.G. Santos, F.E. Mingatto and C. Curti: Hg(II)-induced renal cytotoxicity: *In vitro* and *in vivo* implications for the bioenergetic and oxidative status of mitochondria 53–59

R. Zell, P. Geck, K. Werdan and P. Boekstegers: TNF-α and IL-1α inhibit both pyruvate dehydrogenase activity and mitochondrial function in cardiomyocytes: Evidence for primary impairment of mitochondrial function 61–67

P.E. Vivas-Mejía, J.L. Rodríguez-Cabán, M. Díaz-Velázquez, M.G. Hernández-Pérez, O. Cox and F.A. Gonzalez: DNA binding-independent anti-proliferative action of benzazolo[3,2-α]quinolinium DNA intercalators 69–77

R. Ray, K. Ray and C.K. Panda: Differential alterations in metabolic pattern of the six major UsnRNAs during development 79–88

S.D. Choudhury, M. Lamsal, S.K. Agarwal, R. Sharma and M.Y. Khan: On the tissue/species dependence of cathepsin B isozymes 89–95

S.K. Banerjee, D.R. Campbell, A.P. Weston and D.K. Banerjee: Biphasic estrogen response on bovine adrenal medulla capillary endothelial cell adhesion, proliferation and tube formation 97–105

M. Dessí, C. Motti, C. Cortese, E. Leonardis, C. Giovannini, G. Federici and F. Piemonte: Alternative splicing of human plasma cholesteryl ester transfer protein mRNA in Caco-2 cells and its modulation by oleic acid 107–112

V. Venkataraman, T. Duda and R.K. Sharma: The bovine α_{2D}-adrenergic receptor gene: Structure, expression in retina, and pharmacological characterization of the encoded receptor 113–123

V. Venkataraman, T. Duda and R.K. Sharma: A role for amino acid residues in the third cytoplasmic loop in defining the ligand binding characteristics of the α_{2D}-adrenergic receptor 125–129

M. Mehta and M. Chowdhury: The effect of anti-prolactin antibody on *in vitro* synthesis of a pregnancy-associated rat uterine glycoprotein 131–138

A.J. Tempone, M.L. Bianconi and F.D. Rumjanek: The interaction of human LDL with the tegument of adult Schistosoma mansoni 139–144

M. Szewczenko-Pawlikowski, E. Dziak, M.J. McLaren, M. Michalak and M. Opas: Heat shock-regulated expression of calreticulin in retinal pigment epithelium 145–152

D. Sanchis, F. Balada, M.M. Grasa, J. Virgili, C. Monserrat, J.A. Fernández-López, X. Remesar and M. Alemany: Short-term handling of the slimming agent oleoyl-estrone in liposomes (MERLIN-2) by the rat 153–157

G.E. Haddad, E.R. Petrich, A.P. Zumino and O.F. Schanne: Background K^+ currents and response to metabolic inhibition during early development in rat cardiocytes 159–168

L. Jamba, B. Nehru and M.P. Bansal: Redox modulation of selenium binding proteins by cadmium exposures in mice 169–175

Y. Hattori, K. Akimoto, Y. Murakami and K. Kasai: Pyrrolidine dithiocarbamate inhibits cytokine-induced VCAM-1 gene expression in rat cardiac myocytes 177–181

S.V. Papoutsopoulou and D.A. Kyriakidis: Phosphomannose isomerase of *Xanthomonas campestris*: A zinc activated enzyme 183–191

F. Dalloz, V. Maupoil, S. Lecour, F. Briot and L. Rochette: *In vitro* studies of interactions of NO· donor drugs with superoxide and hydroxyl radicals 193–200

H. Kurota and M. Yamaguchi: Regucalcin increases Ca^{2+}-ATPase activity and ATP-dependent calcium uptake in the microsomes of rat kidney cortex 201–207

M. Yamaguchi and H. Kurota: Inhibitory effect of regucalcin on Ca^{2+}/calmodulin-dependent cyclic AMP phosphodiesterase activity in rat kidney cytosol 209–214

R. Kakkar, S. Taketa, R.V.S. Raju, S. Proudlove, P. Colquhoun, K. Grymaloski and R.K. Sharma: *In vitro* phosphorylation of bovine cardiac muscle high molecular weight calmodulin binding protein by cyclic AMP-dependent protein kinase and dephosphorylation by calmodulin-dependent phosphatase 215–219

V. Pelouch, F. Kolář, M. Milerová and B. Oštádal: Effect of the preweaning nutritional state on the cardiac protein profile and functional performance of the rat heart 221–228
L.A. Blomberg, S.-M. Wu, G. Dirami, M. Dym, J.Y. Chou and W.-Y. Chan: Characterization and cellular localization of PSG in rat testis 229–237
H. Kurota and M. Yamaguchi: Inhibitory effect of regucalcin on Ca^{2+}/calmodulin-dependent protein kinase activity in rat renal cortex cytosol 239–243
P.S. Devamanoharan, A.H. Ali and S.D. Varma: Prevention of lens protein glycation by taurine 245–250
V. Ranta, A. Orpana, T. Mikkola, O. Ylikorkala and L. Viinikka: Culturing of human vascular endothelial cells strongly affects their endothelin-1 and prostacyclin production 251–255
M.G. Murphy, V. Wright, R.G. Ackman and M. Horackova: Diets enriched in menhaden fish oil, seal oil, or shark liver oil have distinct effects on the lipid and fatty-acid composition of guinea pig heart 257–269
Index to Volume 177 271–274
